

Fellow Animal Owners: We must act NOW!!!!

WE MUST DEMAND FEDERAL PROTECTION & RELIEF from the state to state assault by animal rights organizations such as HSUS & PETA, resulting in the **LOSS of OUR PROPERTY RIGHTS!** Word has been sent from Washington, D.C., that it appears HSUS is already using the mandatory spay/neuter vote in Los Angeles, during which the council leader specifically thanked HSUS for their help, to impress upon the US Congress that Californians are OK with mandatory spay/neuter and loss of property rights! This ordinance is illegal. It is utilizing illegal underground rules to circumvent state law. We have been so busy defending our counties and states, that we have neglected contacting our Federal representatives and now HSUS has slipped in around our flank, walking the halls of Congress and whispering that **CALIFORNIANS SUPPORT MSN.** Congressional representatives take that into consideration that therefore, **WE DO NOT CARE ABOUT OUR PROPERTY RIGHTS!** We must immediately contact **EVERY FEDERAL** office **TODAY!** We must do this as a concerted effort to bring plight to light! Call, fax and email each and everyone of the below listed Federal officials. Start with the President, and don't stop until you get through the list. The two links will take you to Federal Congressional members. We must do this en masse, not some time next week. Email this **CALL TO ACTION** to every person you know, every list you belong to **EVERYONE!** Use the following cases to make your point: **Case 1:** The Los Angeles SPCA is using gun wielding thugs to pry our pets from our hands and is targeting senior citizens. This is illegal as Article II-Section 12 of the CA Constitutional states: The Legislature SHALL NOT give any power to a private corporation or person. This kind of illegal action is also a violation of the Anti-Trust Hobbs Act. In essence, the animal rights organizations like SPCA & HSUS through strong-arm tactics, are putting animal welfare & animal enterprise entities **OUT OF BUSINESS.** They are attacking rescue, small Humane Societies, breeders, commercial breeders and pet shops in an effort to **MONOPOLIZE** the pet sale industry. This is no different than giving guns to Wal-Mart which because Wal-Mart did not like the way K-Mart displayed their wares. **Case 2:** In Pasco County where county officials are **ILLEGALLY** notifying **LAW ABIDING** breeders with longtime **VALID** kennel permits and business licenses that they must disperse their animals to comply with the new interpretation of County law which is nine dogs rather than the limit of 49 as reads the kennel permit, we again see the elderly being targeted. This also violates inter and intra-state Federal law, Title 18. Protecting commerce and free enterprise. **Case 3:** The Humane Society of the United States (HSUS) was in possession of a video supposedly shown a downed dairy cow at a processing plant in California. It has been confirmed that downed cows were **NOT** used in processing at this plant. Animal rights groups have long been known to fabricate videos to claim animal abuse. The fact that HSUS waited 3 weeks to reveal this video when a more timely presentation to the USDA would have allowed for instant investigation and thusly would have protected our food supply and would have protected the cows from mistreatment. After the media blitz by HSUS, they asked for donations based on this video. The result: Senator Boxer submits an emergency request to take **ALL BEEF** products off the school lunch menus in California. The vegan agenda of HSUS and PETA just claimed a major victory. One or two more steps and our children will be vegans at least while at school. This is not unlike the media blitz they ran for Michael Vick's dogs, in which they claimed to have care and control of the confiscated dogs and asked for funds for their care, even though they did **NOT** possess even **ONE** of Vick's dogs. The result: laws are sweeping the nation banning many breeds which is resulting in many innocent dogs being confiscated, abandoned or surrendered to a certain death. The animal rights agenda claims another victory. The worst example lies in the media blitz after Hurricane's Katrina & Rita in whom HSUS garnered over \$34 million dollars in direct donations intended for the pet victims. HSUS within months left the disaster area with the tens of millions of dollars leaving the hurricane survivors and their pets without the promised re-unification. So many complaints were filed with the Louisiana Attorney General's office due to claims of fraud, missing funds and missing pets that the HSUS is still under investigation! HSUS & PETA are fund raising organizations. Pure & Simple. They do not utilize the funds to save animals. They use these donations to push animal legislation at all levels-federal, state and local. It's time the Federal government put a stop to the loss of our property rights across the nation. *We are under siege by animal rights groups in states like California, Virginia, Washington, Arizona and Kentucky, and counties from the Los Angeles on the West Coast to Palm Beach on the East Coast.* The AETA (Animal Enterprise Terrorism Act) was designed to protect citizens and commerce. We must demand that it be **ENFORCED.** We must demand **RELIEF** from illegal laws that violate federal law and our U.S. Constitution which declares our rights to property ownership. I ask you now why do we study history? Why is it important? There are many aspects of human history that we do not want to repeat. One of these is the holocaust. One of the first acts of the groups that put Hitler into power was the formation of a group known as the Stormtroopers or Brownshirts, a Para-military unit with no governmental authority. They obtained the names of owners that were registered gun owners. They went door to door to these addresses demanding the registered gun be surrendered. If one could not or did not produce the gun, they were shot and killed instantly. It was an Auschwitz survivor that told this story in Spielberg's Interviews.

They demand we register & sterilize our pets. Need I remind you that they also asked the Jews to register all their family members? You remember what happened to them? Let us prevent this history from repeating itself.

Addresses to write or email are as follows:

Contacting the White House / Mailing Address:

The White House

1600 Pennsylvania Avenue NW

Washington, DC 20500

Phone: Comments: 202-456-1111

Switchboard: 202-456-1414

FAX: 202-456-2461 TTY/TDD email: comments@whitehouse.gov. Due to the large volume of email received, the White House cannot respond to every message. For further up-to-date information on Presidential initiatives, current events, and topics of interest to you, please continue to use the White House website.
